Request for Your Help and Assistance
Survey on aging issues of the Japanese and Japanese Americans living
in the Metropolitan NY Area.

The purpose of this survey is to investigate the awareness of aging elderly issues, including any future plans, among Japanese and Japanese Americans, who reside in NY, NJ, Connecticut and Pennsylvania, with a focus on “home care.”

It is supported by the Yuubi Memorial Foundation research grant, with Dr. Itsuko Toyama (Kanamoto), Professor , Momoyama Gakuin University and Graduate Institute, as its PI (Primary Investigator).

This survey is being sent to the members of various Japanese organizations and to individuals who are age 40 and over and willing to participate in this study.

If you happen to receive multiple copies of this survey, please answer only one form and discard the rest. For any assistance in survey completion, please contact JAA Committee on Aging Issues, and someone will assist you with any questions you may have. (See below for its contact phone number.).

This survey will take approximately 15 minutes of your time. Please send the completed survey in the enclosed return envelope **postmarked by Oct. 7th, 2018.**

Participation in this survey is totally voluntary.
All the information collected will be kept confidential. After the statistical analysis, actual survey forms will be kept securely.

Results of this survey study will be reported back to you in the future, via public seminars.

Thank you for your kind cooperation.
